Dear Timothy ,

Thank you for choosing Tello.

Unfortunately, because the system has already attempted to charge for plan renewals twice, the plans on both lines have expired, so we can no longer extend the renewal date.

Since the lines no longer have any plans, the only way to get service is to purchase plans for these lines again from your Tello account. Please also note that if these lines don't have a plan within the next 12 days, the numbers will expire.

We recommend using an alternative payment method while you wait for your card to arrive and changing the plan in your account once it arrives. We regret that we cannot do anything to keep the lines active.

Drop us a line if you need further assistance with this.
For any other inquiries, check out our Help Center at:
https://www.tello.com/help_center.

Sincerely,
Sergio Castro
[tello.com](https://www.tello.com)

Tello will NEVER call or text you to ask for your Security PIN, Password, Payment Details, OTP or any other sensitive or personal details.
